

Young CLIMATE Warriors

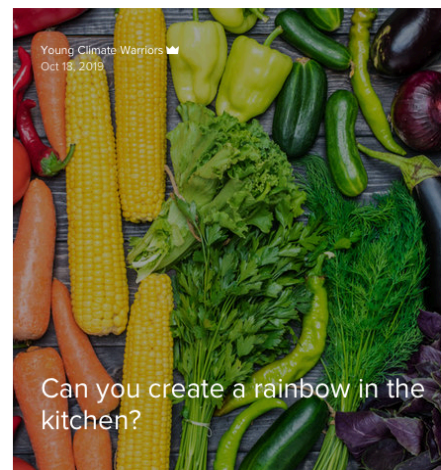

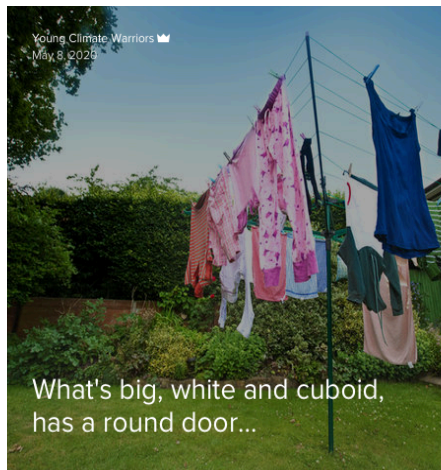

THE STORY SO FAR...

Young Climate Warriors has provided children with fun weekly climate-change related challenges since March 2019, and our virtual team is growing ... inspiring carbon-busting action around the home, encouraging climate change discussion, and sparking creative and imaginative activities in nature. Young Climate Warriors are making an impact and their voices are being heard.

We support teachers and families from Cornwall to Aberdeenshire, with ready-to-use, zero cost, high quality and thought-provoking climate change resources:

- **1,000 children** have signed up as Young Climate Warriors.
- **230+ schools** around the UK have Young Climate Warrior pupils.
- **70+ weekly term-time challenges** to date have tackled a wide range of topics.
- **2,000+ 'Red Buttons'** have been hit – 'challenge completed'!
- **90+ teachers** receive our weekly schools pack.
- **15 schools visited** – meeting with eco-teams, school councils, assemblies, classes.
- **'Climate Change Club in a Box'** - launching April 2021 - series of ten 45-min sessions for after-school clubs or eco-councils.
- **'Showcased programme'** by national teachers resources hub www.transform-our-world.org

OUR VISION - All children (KS2+KS3) will have the opportunity and resources to help them learn and understand about climate change and feel empowered to reflect, discuss and choose their own path of action.

YOUNG CLIMATE WARRIORS SAY...

'I am helping to make the world a better place.'

'Young Climate Warriors is great because it helps us keep our special planet healthy.'

'I like being part of Young Climate Warriors because I get to take part in challenges with other people.'

'My favourite challenge is hard to decide, but I loved eating foods from the UK and emailing my MP.'

'My favourite challenge was the beans and pulses one - it encouraged me to try something new'.

OUR PARTNERS

TEACHERS SAY...

90+ teachers receive a free Young Climate Warriors schools pack every week:

'Joining Young Climate Warriors has really enhanced our curriculum.'

Nicole Pecchia, St Mary's Catholic Primary School, Bath

'Great for presenting the issues to pupils and parents without information overload.'

Kate Hampshire, Wimbledon Chase Primary

'The challenges help embed these actions into our daily lives.'

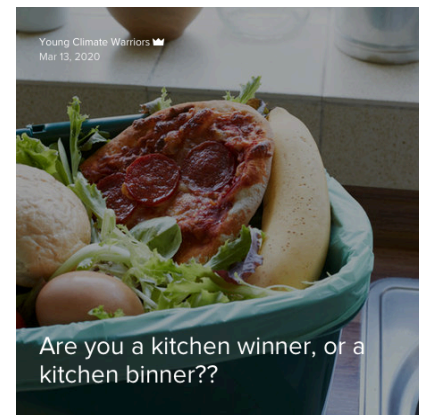

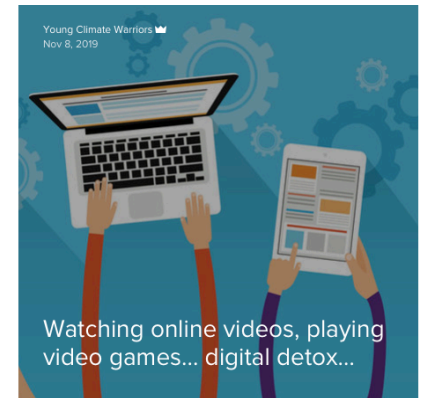

Naomi Cansdale, Godstowe

'Fun and inspiring, full of positive messages.'

Caryn Madge, Kings College Junior School

'Gets children excited and involved.'

Helen France, Aston Rowant Primary School

WHAT'S NEXT?

We would like to help many more schools and families get involved in tackling climate change. By the end of 2021 our aim is to:

Grow our team of Young Climate Warriors and reach many more schools; continue cutting carbon emissions and amplifying young people's voices.

HOW CAN YOU HELP?

The best action you can take is to encourage friends and teachers to sign up to become Young Climate Warriors! If you're able to support us financially your donation via our website would be much appreciated.

Thank
you for
your
support
